

Dear Sir or Madam:

Words cannot describe how much Air1 means to me. The best I can do is to say that the eternal, invisible and living God is using this station to minister to me and my friends in a way that nothing or no one in life can do besides God himself.

It is a

valuable tool in reaching a sight and sound generation with the good news of Christ. I

can attest to this confidently because I am but

24 years old myself and very much in the thick of a generation with the attention span of a gnat! It is with much gratitude that I now close this letter and

whole-heartedly thank you for this opportunity to share my heart with you.

Sincerely,

John Michael Joyce
